

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XF047

Fisheries of the Gulf of Mexico and South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Stock Identification (ID) Webinar for Gray Snapper

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 51 Stock ID Webinar for Gray Snapper.

SUMMARY: The SEDAR 51 assessment of the Gray Snapper will consist of a data workshop, a review workshop, and a series of assessment Webinars,

DATES: The SEDAR 51 Stock ID Webinar will be held from 1 p.m. to 4 p.m. on December 7, 2016, to view the agenda see **SUPPLEMENTARY INFORMATION**.

ADDRESSES:

Meeting address: The meeting will be held via Webinar. The Webinar is open to members of the public. Those interested in participating should contact Julie A. Neer, at SEDAR (see **Contact Information Below**) to request an invitation providing Webinar access information. Please request webinar invitations at least 24 hours in advance of each Webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC
29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator;
(843) 571-4366. Email: Julie.neer@safmc.net

SUPPLEMENTARY INFORMATION:

Agenda

The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: 1) Data Workshop; 2) Assessment Process utilizing webinars; and 3) Review Workshop. The product of the Data Workshop is a data report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database

managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Stock ID Webinars are as follows:

1. Participants will use review genetic studies, growth patterns, existing stock definitions, prior SEDAR stock ID recommendations, and any other relevant information on Gray *Snapper* stock structure.
2. Participants will make recommendations on biological stock structure and define the unit stock or stocks to be addressed through this assessment.
3. Participants will provide recommendations to address Council management jurisdictions, to support management of the stock or stocks, and specification of management benchmarks and fishing levels by Council jurisdiction in a manner consistent with the productivity measures of the stock.
4. Participants will document work group discussion and recommendations through a Data Workshop working paper for SEDAR 51. Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens

Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**), at least 3 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 16, 2016.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries,

National Marine Fisheries Service.
